WETASKIWIN, ALBERTA, THURSDAY, OCTOBER 1, 1925

V. C. French, Publisher

## STANLEY G. TOBIN, M.L.A., IS LIBERAL CANDIDATE

**Officers Elected for newly-formed Constituency. Sixteen Candidates placed in Nomination. Resolutions Adopted. Mr. Tobin makes Fighting Speech in accepting Nomination. Hon. Chas. Stewart Addresses Convention.**

A largely attended and enthusiastic meeting of the Liberals in the newly formed constituency of Wetaskiwin was held here on Monday afternoon, when Stanley G. Tobin, M.L.A., for Leduc, was made the unanimous choice as candidate for the forthcoming election.

The meeting was called to order by H. J. Montgomery, who convened the meeting. He was elected to preside, and V. C. French was selected as secretary.

### Officers Elected

The first business transacted was the election of officers for the new district, and the following were placed in office.

Hon. Pres.—Rt. Hon. W. L. Mackenzie King.

Hon. 1st vice President—Hon. C. Stewart.

Hon. 2nd vice President—Hon. C. H. Mitchell.

President—H. J. Montgomery.

Vice President for Lacombe district—D. H. Jones.

Vice President for Ponoka district—Dr. Campbell.

Vice President for Leduc district—H. W. Joslin.

Vice President for Strathcona district—Mr. Laing.

Vice President for Wetaskiwin district—V. C. French.

Sec. Treas.—W. H. Odell, Wetaskiwin.

The executive will be composed of the following from the provincial districts:

Lacombe—Mrs. Miseney, H. M. Trimble, R. M. Gibson, and Clarence Danen of Bentley.

Ponoka—Mrs. Hugh Miller, Louis Fleming, E. H. Hinkley and Harold Eckhardt, of Rimby.

Leduc—W. H. Threngold, E. C. Wells, S. W. Shankle and A. P. Mitchell, of Millet.

Strathcona—Mrs. C. McIntyre, Dr. Fuller, H. C. Calder, and Pat Radigan of Rabbit Hills.

Wetaskiwin—Mrs. Geo. D. Wallace, Wm. Maxwell, V. E. Thompson and T. T. Jenne.

### Resolutions Committee

The chairman appointed the following as the committee on resolutions: Messrs. E. H. Jones of Lacombe, Turner of Ponoka, Coote of Leduc, S. G. Tobin and Dr. Stevenson, of Wetaskiwin.

### Candidates Nominated

By unanimous resolution, it was decided to put a candidate in the field, and the following were placed in nomination: Dr. Campbell, of Ponoka; S. G. Tobin and H. W. Joslin, of Leduc; R. M. Gibson, E. H. Jones and W. P. Puffer, of Lacombe; Mr. Laing of Strathcona, and Dr. R. D. Robertson, H. J. Montgomery, Dr. Stevenson, V. E. Thompson, H. M. Parker, W. H. Odell, L. D. Montgomery, Oliver Robinson, and O. W. Vudal, of Wetaskiwin. All the nominees withdrew with the exception of S. G. Tobin, E. H. Jones and Dr. Robertson. A ballot was then taken and Mr. Tobin was made the unanimous choice.

### Resolutions Adopted

The following report, submitted by the resolutions committee, was then endorsed:

"Resolved, that we, the Liberals for the federal constituency of Wetaskiwin, assembled, express our appreciation of the capabilities of the Right Honourable William Lyon Mackenzie King;

"And furthermore, we commend the efforts of the government to lower transportation rates on freight, and we hope they continue their fight for a lower tariff on implements of production and necessities of life;

"And further, that we vote with interest the untiring efforts of the Hon. Charles Stewart in advancing western interests."

### Mr. Tobin Accepts Nomination

In accepting the nomination, Mr. Tobin made a good fighting speech, in which he pledged his support to the policies of the Liberal party, which he was convinced were for the best interests of the Dominion of Canada. He said he would work day and night until after election day, and asked for the assistance of all in sympathetic Liberal principles to rally round the banner at this time and to enter into

the contest with a determination to send a supporter of Rt. Hon. W. L. Mackenzie King to Ottawa. He will address as many meetings as possible throughout the constituency.

Hon. Chas. Stewart, minister of the interior, preface his address by expressing his delight at Mr. Tobin being nominated at such a large convention, as he would make an energetic and capable representative. As he was in late, the minister spoke very briefly.

He first dealt with the tariff, stating that it was nothing more than a tax on the people of the country. It was the policy of the Liberal party to reduce the tariff to the lowest possible point, whereas if Hon. Arthur Meighen is elected to rule the country he is pledged to increase the tariff.

The Liberals had reduced the tax on about 255 articles, but he had time to refer to only one of them—farm implements. Mr. Meighen had said that Premier King had taken a step that would ruin Canada, as the manufacturers would be forced to close down their plants, and some of them at least would move across the line. But what was the outcome? Messrs. Harris and other manufacturers were working full handed and full time to supply the orders they are receiving, instead of the country going to blue ruin. The I.L.C. is breaking down at Hamilton preparatory to manufacturing binder twine and will employ a staff of over 400 hands. Frost, & Wood are operating with a full force and have orders for the next fifteen years.

The Liberal party had reduced the cost of production on nearly all necessities used by the people, such as boots and shoes and other articles. The party has been accused of not reducing taxation in Canada, but such is not the case.

From 1911 to 1921, either disguised as a Union government or as straight Tories, the Conservatives had been in power. The great war occurred during that period, adding to our national burden \$2,000,000,000 of war expenditure, which constituted a fixed and unavoidable charge. He did not blame the Conservatives for that. Any government would have had to spend it. But apart from that, he thought they had been very extravagant, adding \$177,000,000 to our national debt. The Liberals had had big budgets and in two of them they had added \$100,000,000 to the national debt.

The treasury board, of which Mr. Stewart was one of the five members, had cut the budget by \$25,000,000, which pointed in the right direction to get the accounts balanced. The expenditure has been reduced by \$114,000,000 in the last year.

### The Railways

Hon. Mr. Stewart then dwelt on the railway situation and upheld the action of the government in re-engaging the services of Sir Henry Thornton as manager of the Canadian National Railway. He had changed a deficit in operation of from twelve to fourteen million annually to a surplus in the three years he had had control, of twelve, twenty and seventeen and one-half millions. The speaker favored keeping the C.P.R. and N.W.R. separate, as we wanted competition. No railway in the world was operated more efficiently than the C.P.R., and it was the determination of Sir Henry Thornton to get the C.N.R. in the same position.

The King government, he said, had had some stiff rebuffs. Practically their whole support came from the east. It would make it a lot easier for them if he could, as he hoped, go back with a seat and seven or eight supporters from Alberta.

The speaker spoke of the Conservatives as the common enemy of the west. In the long run their policy would be disastrous even to the east—to the whole of Canada, and would tend to divide east from west. He would repeat his plea for a Dominion under a government representing the whole people, instead of a small economic group—a great country, the banner nation of the British Empire.

## SERIOUS ACCIDENT NEAR WETASKIWIN

A serious accident occurred three miles east of Wetaskiwin on Wednesday evening last when an automobile driven by Hugh MacLachlan turned over and caught fire. Mr. MacLachlan was not seriously hurt and he was driven to the home of his sister at Leduc shortly after the accident.

The automobile was a total loss but was covered by insurance. Mr. MacLachlan was driving from Camrose and hurrying to catch the Edmonton train at Wetaskiwin, and in turning a corner the accident happened.

Mr. MacLachlan is a former resident of Wetaskiwin, as he was the local agent for the Mutual Life Insurance Company for some time.

## ELDERS ORDAINED IN UNITED CHURCH

A very solemn and impressive ceremony took place in the United church on Sunday evening when eleven elders were ordained to office. This part of the service took place after Rev. Elliott had preached an excellent sermon appropriate to the occasion. The elders of the church are Messrs J. P. Ellis, Thos. Lawson, N. A. MacLachlan, A. McLean, E. B. Chandler, H. L. Thomas, G. Robinson, Wm. Mellett, J. G. Griffiths, J. R. Marshall and A. S. Craig.

## DR. WM. EGBERT LIKELY AS NEW LIEUT. GOVERNOR

Calgary, Sept. 24.—Dr. William Egbert, of Calgary, president of the provincial Liberal organization, who has been connected with the activities of that party for many years, will be the next lieutenant governor of Alberta, according to well informed Liberals in this city.

The term of His Honor Lieut. Governor R. G. Brett, present incumbent, expires on October 30, and it is expected that an announcement will be made from Ottawa within the next few days. Liberals high in the confidence of the party are absolutely sure that Dr. Egbert will get the appointment.

Dr. Egbert was born in the Welland district, Ontario, on February 25, 1857. He was educated at Danville, Ont., high school, and the University of Toronto, where he graduated with the degree of M.D. in 1883. He practiced in Milverton for 14 years, coming to Calgary in 1904. Dr. Egbert is a Mason and an Oddfellow.

## GRAIN DELUGE AT ITS HEIGHT

Winnipeg, Sept. 28.—With six million bushels of wheat marketed on the prairies Friday, and five million on Wednesday, the deluge of grain has reached the peak. With trains of sixty cars moving thirty minutes apart on both railway systems, all records of the Canadian west for delivery have been broken. This rush to market, however, has no direct influence on Thursday's five cent decline, the traders assert. Export demand is simply lacking for Canadian varieties with foreign consignments offering short on the world market below the market price Canadian exporters can afford to move grain. Meantime the pool is accumulating a colossal quantity, while large foreign milling concerns usually purchasers at this time are not filling their commitments.

## MACLEOD FEELS SLIGHT SHOCK

MacLeod, Sept. 28.—MacLeod was treated to its first slight earthquake shock Saturday morning about 8:30. The quake was accompanied by low rumblings which lasted several seconds. A large number of residences were shaken very much, but the inhabitants were badly frightened. The quake took place during a severe snowstorm. According to the oldest inhabitants this is the first time that MacLeod has felt any tremors. Many persons are doubtful as to the causes of their residences shaking, thinking it was some phenomenal electrical storm.

## WILL MILLET HAVE A CURLING RINK?

A meeting of those interested in curling will be held in the Community hall, Millet, on Wednesday evening next, October 6th, to consider the matter of erecting a curling rink in Millet. It is urged that there be a large attendance.

## KIWANIS CLUB ENJOYS ADDRESS BY JUDGE BOYLE

The weekly luncheon of the Kiwanis Club was held at the home of Mrs. Patterson on Tuesday evening when a large attendance of the members did ample justice to an excellent chicken dinner.

The dance committee reported that the Elks' hall had been engaged for the evening of October 9th for the opening dance of the season.

The swimming pool committee recommended that the lot west of the power house be secured, as a site, as they are adjacent to the boilers at the power house where hot water can be procured at little or no cost, thereby reducing the operating expenses to a minimum. The report was adopted.

His Lordship Justice Boyle was the speaker of the evening, and he delivered a very interesting and witty address. His first thought was to make some remarks on impressions on the bench, but he felt that he had not been a judge long enough to give an address along that line. A judge passes through three periods in his career. The first was when he was conscious of his decisions; the second was when he had some doubt about the matter, and the third was when he did not care whether he was right or wrong.

The judge related some very amusing incidents which had taken place while he was a member of the legislature, and kept the gathering in a very happy mood. As a judge he viewed many of the laws he had assisted in placing on the statute books from another angle, and judicially remarked that he hoped he would be forgiven in the next world, if not in this, for many of his deeds. In his long experience he found that the member of parliament, whether a supporter of the government or not, was always a zealous worker for his constituents, both in the Senate and after the sessions were over.

Kiwanis W. H. Odell, K.C., was the chairman of the evening.

## LIBERAL WINS THE HAT BY-ELECTION

Medicine Hat, Sept. 20.—Charles S. Pingle, Liberal, was elected on the first count on the results obtainable last night by a majority of 442 in the by-election here. At midnight there were still 213 votes to hear from, all of which were small ones. It was thought impossible that the unknown results would materially affect the result already known.

The standing of the candidates at midnight was:

Pingle, Liberal	1,578
McCombs, Labor	1,135
Hendricks, Cons.	983

It was unofficially reported that McCombs had a majority of 33 in the missing polls.

## RED CROSS ANNUAL ALBERTA CAMPAIGN

The annual campaign for funds for the Alberta division of the Canadian Red Cross takes place in October throughout the province. On October 31st the day known as Red Cross day or Health Day is held.

A special feature this year is the system of grain donations, by which gifts of grain in lieu of cash are being solicited from the farmers. All elevator companies have been instructed by the Western Grain Dealers association to accept donations of grain and to forward cash cheques to the provincial headquarters.

This Grain campaign will in no way interfere with the regular Red Cross campaign which is direct campaign for contributions and memberships.

It is hoped that all country towns and districts will plan to have a Red Cross entertainment, or dance, some time during October, preferably on October 31st, the proceeds to assist in reaching the objective for that community.

Lantern lectures and campaign literature as well as grain receipt books and entertainment posters are available at head office on receipt of your request. Will arrange for speakers to address meetings on behalf of the Red Cross drive.

## NOMINATING CONVENTION

The U.F.A. nominating convention takes place in the U.F.A. hall, Wetaskiwin, today (Thursday) when it is expected that a candidate will be placed in the field to contest the riding at the election on October 29.

## ELEVATOR PURCHASED

A deal of considerable importance took place recently when the Western Cattle Flour Mills Co. purchased the Prairie Elevator in this city. Finlay B. Watson will be the manager for the new company here.

## POPULAR CITIZEN SHOOTS HIMSELF

A most unfortunate affair took place a few miles east of Wetaskiwin on Thursday afternoon of last week, when Chas. Nelles shot himself with a rifle. It is alleged that the unfortunate man, who has not been living with his wife for some time, met Mrs. Nelles on the road, and some words were exchanged. Shortly after they parted, the shooting took place. Mr. Nelles was found on the roadside in a semi-conscious condition by a party coming to Wetaskiwin, and he was rushed to the Wetaskiwin hospital, where it was found that he had a gunshot wound in the forehead. He is recovering nicely, and unless complications set in, which is unlikely, he will soon be around again.

## CITY MEAT MARKET AGAIN BROKEN INTO

Some time between Monday night and Tuesday morning someone forced an entrance into the City Meat Market and removed some \$200.00 from the till. The entrance was effected by cutting the iron bars on a window at the rear of the shop. The matter was reported to the police who are now investigating the case. It was only a few months ago that the store was broken into in a similar manner and some cash and other articles were stolen.

## GREAT DAMAGE TO CALGARY TREES BY HEAVY SNOWFALL

More than half a foot of heavy wet snow which fell in Calgary on Sunday night caused great damage to the health of many trees, and the telephone lines in this city. Private phone connections were interrupted when the snow brought limbs of trees down almost to the ground, tearing telephone and electric light wires loose either from the main street lines or from the houses.

Trees in all sections of the city were bearing down under the heavy load of snow, and in many cases the limbs were snapping off under the heavy strain. Leaves are still on the trees, and these intercepted the falling snow, being the primary reason for practically all the damage done and experienced.

## Yeoford and Pendryl Residents Attend Clinic

Dr. Heacock, Dr. Hucklell, and Miss E. Clark, R.N., superintendent of public health nurses, returned Saturday night from Yeoford and Pendryl in the Duck Lake district, where they held a number of clinics. They were pleased to note a decided improvement in conditions over last year. In 1924-25, seventy cases were brought to their attention at Yeoford and nearly as large a number at Pendryl. Among these were two children suffering from infantile paralysis. Directions for treatment of one child were given and a place in the University hospital will be sought for the patient. Treatment and direction for care at home were given in the other case. Among the large number of adults and children seeking dental treatment was a woman who had not been out of the district for twelve years.

Patients came from as far as fifteen miles to receive the much-anticipated medical and dental treatment and advice which they can obtain on these rare occasions yearly.

En route to their destination, the doctors and nurses, after a four-hour tussle with a semi-melting stretch of road, finally abandoned the car in favor of a wagon, in which the last 20 miles of the journey were taken.

## BIG WHEAT YIELD AT CROOKED LAKE

E. R. Rasmussen of the Crooked Lake district informs The Times that he threshed his wheat last week, and had a yield of 45.5 bushels machine measure, from a field of 41 acres. It is of the Red Rose variety and was of good grade. We would like to hear of any other yields in the Wetaskiwin district.

## CONSERVATIVES HOLD VERY SUCCESSFUL CONVENTION

**Chas. H. Russell is the Unanimous Choice as Candidate. W. J. Loggie, K.C., and Dr. Rutherford address Convention. Mr. Milner spoke to Delegates on Provincial Affairs. Officers Elected. Committee Rooms to be Opened.**

At a largely attended meeting of the Conservatives of the new Wetaskiwin federal riding, Mr. Charles H. Russell, barrister, of Wetaskiwin, was the unanimous choice of the convention. This federal riding consists of the provincial ridings of Strathcona, Leduc, Wetaskiwin, Ponoka and part of Lacombe, and delegates were here from these parts, every provincial constituency having been entitled to ten delegates.

The name of Mr. Andrew Gilmore, of Lacombe, was also placed in nomination but Mr. Gilmore withdrew and stated that for personal reasons he

## AUTO HITS POLE; DRIVER IS KILLED

Stettler, Sept. 25.—While driving at dusk on Wednesday night, Ed. Barrett met with an auto accident which cost him his life. In turning a sharp corner about one mile north of Redwile, he ran into a telegraph pole, completely demolishing the car, which tumbled over on him. He was badly crushed about the head and died almost instantly. Charles Zelger, who lives close to the place of the accident, heard the crash and hurried over and gave the alarm. Dr. Connolly was summoned from Stettler, but Mr. Barrett was beyond aid. Mr. Barrett was about fifty-three years of age and was an old-timer in the Redwile district. He was married a little over a year ago and leaves a widow and child. His wife is bedfast, having been stricken with an illness earlier in the day.

## VERMILION S. OF A. OPENS OCTOBER 27

Registrations are now coming in for the school of agriculture at Vermilion. Already almost thirty registrations have been received, and the indications are that there will be a splendid enrolment by October 27, when the school opens again, after being closed to regular students for two years.

The new 1925-26 calendars are being distributed and if any boy or girl is interested, we shall be pleased to mail one. In the back of the calendar is an application blank, which may be filled out and return to W. J. Elliott, the principal.

## RED DEER'S POWER PLANT VALUE FIXED

Red Deer, Sept. 28.—The public utilities commission have handed down their award in the arbitration between the city of Red Deer and the Western General Electric company as to the value of the company's plant and business. The amount of the award is \$74,665.39.

This will be submitted to a vote of the ratepayers for approval or rejection.

A large increase, both in the number of fox farms and in the value of those farms in Canada, is shown for the year 1924 over the previous year. Last year there were 1,466 farms, valued at \$10,813,535; as compared with 1,179 farms in the previous year, valued at \$8,254,284. An even larger proportionate increase is shown in the number and value of other bearing farms. The animals are: raccoon, mink, skunk, marten, fisher, coyote, chinchilla and other kinds of rabbit, and karmlu sheep. In 1924 these farms numbered 84 and were valued at \$152,587, as compared with 48 farms in 1923, valued at \$99,415.

## NOTABLE GROWTH IN FOX FARMING

This is the season of the year when the adaptability of the soil for the growth of vegetables is prominently revealed. This week William Mellett brought into The Times office two potatoes, each of which weigh about three pounds, and are of the "Red" variety. Last Friday, A. Laidlaw brought three very fine potatoes at this office which weighed six and a half pounds. The largest of the three tipped the scales at two and one-quarter pounds. All these "spuds" are well formed, and not of the freakish nature so often found when the growth is abnormal.

## CRIMINAL COURT HERE THIS WEEK

His Lordship Mr. Justice Boyle is holding sittings of the Supreme criminal court here this week. There are four cases on the docket. We will give a complete report of the court in next week's issue.

## LARGE POTATOES

This is the season of the year when the adaptability of the soil for the growth of vegetables is prominently revealed. This week William Mellett brought into The Times office two potatoes, each of which weigh about three pounds, and are of the "Red" variety. Last Friday, A. Laidlaw brought three very fine potatoes at this office which weighed six and a half pounds. The largest of the three tipped the scales at two and one-quarter pounds. All these "spuds" are well formed, and not of the freakish nature so often found when the growth is abnormal.

## VEGETABLES WANTED

Donations of vegetables will be gladly received by the hospital from any persons having a surplus quantity this year.

**Fanny Fleetfoot Helps Herself**

HE WHO RUNS MAY READ.

The above pictures were taken near Lake Louise by a member of the Trail Riders of the Canadian Rockies during the recent Ride of the Century. According to the photographer's version of the story the deer walked deliberately up to the sign-board, read the notice and, after snorting contemptuously with all the gusto of a lumber-jack attacking a plate of ham-and-eggs. It was, he said, a wilful piece of law-breaking, committed in cold blood and with malice aforethought solely intended to show a disgraceful disrespect for constituted authority and the decrees of the Lords of Creation.

Another onlooker, however, is willing to take a solemn oath that the deer was a doe and that she was browsing guiltlessly among the boulders when

"GATHER YE ROSE BUDS WHILE YE MAY."

the pretty flowers attracted her attention and she started to collect a few to take to her dear old grandmother who was sick in bed at home. After she had innocently gathered a mouthful of the tempting blossoms, declares this witness, the doe suddenly came across the notice board, studied it for a moment and immediately returned the flowers to where she had picked them.

Although it is understood that the local police are investigating, it is doubtful if the truth of the matter will ever be fully known. In the meantime, however, we hope that all right thinking Christian people will give the dear little deer or doe or whatever it is, the benefit of the doubt. There is incidentally no truth in the rumour that a collection is being taken up at Banff to cover the costs of her

**BEST BULBS FOR FALL PLANTING**

Flowers are, no doubt, enjoyed more in the spring than at any other period of the growing season. After a long winter the first flowers are eagerly sought for and if bulbs have been planted in the autumn one has not long to wait for flowers for Snowdrops bloom as soon as the snow is gone. Then come in rapid succession, and some at the same time, the Scillas or Quills, Glory of the Snow or Chionodoxa, Crocuses, Grape Hyacinth, Dutch Hyacinth, Narcissus in great variety, and early cottage and Darwin Tulips. These give a succession of bloom from early in April, or earlier if the frost is out of the ground, until well on in June.

While the bulbs are growing in Holland, the flowers for next year are being formed in the bulb. Later, the bulbs are dug, cured and shipped to Canada. Knowing that the flowers are already formed in the bulb, the grower plants, he who proposes either to grow them in the garden or not them for the house will readily understand that large, well developed bulbs are likely to give better flowers than small ones. In ordering, this should be remembered. No amount of care can add more blooms to a Hyacinth spike than were formed when the bulb was growing in Holland.

Unless the bulbs are well rooted in the soil outside or in the pots in the house, the results will not be satisfactory, hence the desirability of obtaining them as soon as they are offered or sale in the stores, which will be during the month of September. Tulips, Narcissus and Hyacinths should be planted from four to six inches deep to the bottom of the bulb, and about the same distance apart, while the smaller bulbs, such as Snowdrops, Crocuses and Squills, may be planted about two inches apart and from two to three inches deep.

Some of the most satisfactory varieties of the more important bulbs for the garden are:

Narcissus—Emperor, Sir Watkin, Madame de Graaf, Madame Plomp, Poiteuse.

Hyacinth—La Grandessse, Grand Lili, King of the Blues, Gigantea, Early Single Tulips—Duchesse de Rois des Belges.

Parma, Gold Pinch, Keizerskroon, Lady Boreel, Maes, Cottage Maid, Sir Thos. Lipton, Prosperino, Golden Queen.

Early Double Tulips—Comrade d'Or, Imperator (Isidorus), Murilo, Cottage Tulips—Macropsella, Golden Crown, Picotee, and many others.

Darwin Tulips—Bartigon, Clara Butt, Farcombe Sanders, Isis, Edme, Pons Hais, Millie, Wm. Pitt, Gretchen.

There is not a man or woman in the district who cannot get two or three dollars' worth of good out of this paper every year if they will but read it. The advertisements contain news value every week and the classified advertisements often point the way to clever buying or an opportunity for convenient disposal of property.

**TRANSPORTATION AND STORAGE OF SEED POTATOES**

Improper storage of potatoes results in the loss of thousands of bushels annually. The careless handling of potatoes in transportation means financial loss and tends to have a serious effect upon the market.

Several factors influence the successful storage of potatoes. These are temperature, ventilation, humidity, depth of pile and sound stock free from dust and dirt.

Potatoes should be stored in as cool a temperature as possible, without freezing. A good average temperature ranges around 36 degrees. Good ventilation is essential to assist in carrying off excess moisture, particularly where potatoes are stored in large heaps. Control of temperature, moisture and ventilation can be obtained by using false floors, walkways and air-shafts. Too dry an atmosphere causes shrinkage, therefore, a certain amount of humidity is necessary. In a bright year careful grading should be practiced. Potatoes showing rot should not be placed in storage. Avoid the development of certain rots in bruised and cut tubers by whitewashing the interior of the storage houses. Potatoes should not be removed from the field in a wet or dry condition, as these elements increase the possibility of rot in storage. In harvesting, care should be taken to avoid cutting or otherwise damaging potatoes, since it is through these cut surfaces that storage rots often gain entrance.

A grower's responsibility does not end when his potatoes have been bagged. The use of clean bags is a factor which at times is not taken into consideration. Bags or sacks should be either washed or sterilized. Second hand floor bags are good providing they are not intended for storing for any length of time. Salt or fertilizer bags should not be used.

Directly or indirectly the grower is responsible for the arrival of his stock in a sound condition. Frost is by far the greatest obstacle to transport. Care must be taken that the stock is not chilled during the trip from the farm to the shipping point. The liberal use of straw and blankets in the cold weather is essential. Similarly in the railway cars straw and paper will reduce the possibility of freezing. Careful handling at sidings where no loading platforms are provided will prevent bruising. It is not unusual for several potatoes in a bag to be badly damaged by rough treatment. Careful piling in the car lessens the possibility of bruising during transit. It is always advisable to so arrange the tiers that they will slant back and thus eliminate the danger of falling between the car doors where bulkheads are not used.

**19 HOMESTEADS TAKEN**

Nineteen homesteads and two sub-division grants were filed upon in the Edmonton district during the week ended September 23, according to statistics compiled by the Dominion land office. This brings the list of homestead entries for the month to a total of fifty-seven.

THURSDAY, OCTOBER 1, 1925

The Jewish  
New Year

Saturday and Sunday, September 19 and 20, were the Jewish New Year of 5686, which was celebrated by Jews everywhere. This sacred festival is celebrated on the first and second day of Tishri. It is the festival of the New Year, and while it is a time for rejoicing, it is a period of great solemnity. The Jews believe that on these days their actions of the last year are reviewed by the Great Judge. The services in the synagogue are very impressive. The shofar (ram's horn) is sounded many times to call the attention to the duties and significance of the day, and to remind that the great day of atonement is drawing nigh.

The festival is known by four names: New Year, literally, Lead of the year; day of memorial, because God calls to memory our faults and sins of the last year; day of judgment, for on these days we are on trial before the Judge of the whole earth; day of sounding the horn, because we sound the ram's horn several times during the service in the synagogue. Tradition states that on the first day of Tishri the ram was offered instead of Isaac on Mount Moriah.

The tenth day of Tishri is yom kippur, the most solemn and sacred day of the year. It is the day of atonement for the transgressions of the last year. It is a Sabbath day, and observed as strict fast from sunset on the 9th to midnight on the 10th, a fast from which nothing can release except dangerous sickness.

TABER MUSIC TEACHER  
MAKES SPLENDID RECORD

Th work of Taber's most prominent musician during the past months was crowned with marked success recently. At the examinations of the Royal Academy of Music held each spring, with Dr. J. F. Hathaway, of London, England, as the examiner, the examinations this spring were featured by Mr. L. D. Wright being successful in having 100 per cent of his pupils going up past these examinations.

Master Edwin Talman, one of the candidates, only 11 years of age, passed the lower division, having passed the elementary division last year, as well as Miss Jeanne Derrine. The list of Mr. Wright's pupils examined was as follows: Elementary division — Miss Blanche Derrine, Gerald Talman, Emile LeBlanc. Lower division — Miss Jeanne Derrine, Edwin Talman. It might be mentioned that the Talman lads are following in the footsteps of their older brother, Edwin, their father, being a member of a local orchestra and the band, while Mr. Talman's father is president of the Western Musicians' association, residing in Winnipeg.

The success of Mr. Wright's pupils is quite in accord with local opinion of his work as generally held.—Lethbridge Herald.

NOTICE TO FARMERS  
AND THRESHERMEN

All farmers who are at all particular about keeping their land reasonably free from any noxious weeds, entirely free from the worst of them, should take advantage of their opportunity during threshing season of preventing any threshing machine entering upon their land which, after having threshed some dirty fields of grain have not been thoroughly cleaned out, both machines and racks.

You can demand of any thrasher-man that he observe the following. Sections 16 and 17 of the Noxious Weeds act, which he must have displayed in a prominent place upon his machine: "Section 16—Every thrasher shall thoroughly clean his machine both inside and out and all his wagon racks immediately after threshing at each setting, and before removing the machine or any part thereof to another setting." "Section 17—Every thrasher shall clean grain threshed by him and when delivered to the owner it shall not contain more than 100 seeds of noxious weeds other than wild oats to every 1000 of grain, and all screenings containing these noxious weeds shall be either destroyed by the owner within five days after the grain is threshed or removed in closely woven and securely tied sacks."

EDUCATION PAYS  
TO THE FARMERS

Statistics show that farmers who have had an education make larger incomes than those who have received little schooling.

An education is more necessary now than it was thirty years ago. Farming has changed greatly in this period. Then farmers cut their grain with a cradle, bound it by hand and threshed it with a flail. They ground their grain between stones and lifted the water out of the well in buckets. They treated their ranscript cattle for "hollow horn" and "wolf in the moon" and planted their grain "in the moon". The horse and ox were their only means of transportation. The farm homes had no conveniences; houses were lit with candles; the kitchen equipment consisted largely of hard work.

Now, the farmers have larger farms. They cut and bind their grain with binders and thresh with engine driven separators. They frequently plow with tractors and many own automobiles. They select varieties of grain that are known to give larger returns than the ordinary varieties. They treat their seed to control disease and plant at rates per acre and at dates, which experiments have shown to give maximum yields. They select improved types of breeding animals and feed their stock in accordance with knowledge derived from the chemistry of foods. The equipment and conveniences in farm homes have been greatly improved.

To keep up with the times and to make the most money from the farm one should know how to farm and merchandise in accordance with the most improved methods. You can learn these methods at the Olds school of agriculture. Education pays; you can learn in a few months at O.S.A. what it would take years of experience to give you. Talk with any of our courses regarding the value of the courses.

Sheep Importation  
To Help Province

The fact that large breeding rams are to be admitted to Alberta from across the line free of duty during the period between October 15 and November 30, will be a big boon to the sheep industry in the province, according to S. G. Freeborn, dominion sheep and swine promoter for Alberta.

The institution of this policy last year resulted in the importation of some 700 rams, mostly of Rambouillet breeding, from Montana and Utah. This has been followed by a considerable improvement in the quality of the sheep in many districts in the south of the province where these animals have been used, and this year it is found necessary to import still greater numbers to meet the demand for good breeding stock.

In the neighborhood of 650 head of Rambouillet rams are already being held at the border, states Mr. Freeborn, awaiting the lifting of the duty which will allow them to enter on the same basis as pedigree animals. It is expected that the importation during the fall will be between 800 and 1000 head. The introduction of this number of sheep of this breed to head flocks in southern Alberta, it is expected, will do a great deal to increase the quantity and quality of the wool produced in the province, as the Rambouillet is recognized as being among the best wool producing breeds of range sheep.

## BOUQUET FOR FATHER

We happened in a house the other night, and over the parlor door saw the legend written in letters of red: "What is Home Without a Mother?" Across the room was another brief: "God Bless Our Home."

Now what's the matter with "God Bless Our Home"? He gets up early, lights the fire, boils an egg, and wipes the dew off the lawn while my mother is sleeping. He makes the weekly hand-out for the butcher, the grocer, the milkman, the baker, and his little pile is badly worn before he has been home an hour.

It there is a noise during the night, Dad is ticked in the back and goes downstairs to find the burglar and kill him. Mother dries the socks, but Dad bought the socks in the first place and the needles and yarn after that. Mother dries the socks in the first place and the needles and yarn after that. Well, Dad bought it all, and jars and sugar coats like the mischief.

Dad buys chicken for the Sunday dinner, carves them himself, and draws the neck from the ribs after everyone else is served. Dad, here's to you; you've got your faults—you may have lots of them—but you're all right, and we'll miss you when you are gone.—Ex.

Your printing should be done in good taste if you are to be satisfied with it. The printing executed at the Times office will compare more favorably with that of other printing plants.

## Here and There

The total handlings at the new international government elevator in Edmonton, Alta., since its opening last fall, amount to 2,550,000 bushels. Of this quantity of grain handled, more than 2,000,000 bushels was wheat.

With the completion of the 1925 assessment for Toronto, the Chief assessor announced that the city's population is now 549,429, or 7.02 greater than last year. The total assessment for 1925 is \$891,673,797, which is \$16,259,443 higher than for 1924.

A new high-water mark for the 1925 season of navigation in regard to number of passengers landed at Quebec over a week-end, was established during the week-end of September 28th when six boats docked with nearly 5,000 passengers. The three Canadian Pacific steamers, the Montclair, Marloch and Melita, brought 2,524 of the total passengers landed.

Between four and five hundred travelling passenger agents, representing railway throughout the United States and Mexico, united with representatives of the Canadian railways and steamship companies in Montreal during the week ending September 19th, for the fifteenth annual convention of the American Association of Travelling Passenger Agents.

In succession to Captain James Gillies, who was recently appointed general manager Canadian Pacific steamships in London, Captain R. G. Latta has been appointed to the command of the Empress of Scotland, flagship of the Canadian Pacific fleet. Captain Latta was previously in command of the "Montclair" and other vessels of the same line.

Arrangements are being made for the holding of the western annual meeting in Winnipeg from November 3rd to 5th of the Canadian Institute of Mining and Metallurgy. The meetings will be held in the Royal Alexander Hotel. Delegates from all points in the West, as well as from Eastern Canada, are expected to attend.

A memorial known as "The Altar of Peace" has recently been unveiled in Stanley Park, Vancouver, to symbolize the spirit of international good-will existing between the United States and Canada. The memorial was raised by joint subscription of United States and Canadian Kiwanis Clubs, and stands on the spot where the late President Harding delivered the last speech of his life while visiting Canada, in July, 1923.

One of the largest shipments of live foxes for export ever to leave Prince Edward Island, left recently for New York for transshipment to Norway. The shipment comprised 200 foxes in all, with a gross value of \$40,000. Several small shipments of animals were consigned to Norway last year and this large order has followed the success which the Norwegian breeders have had with these animals previously sent from this country.

As illustrating the volume of grain delivered by the Port of Montreal compared with that of Vancouver, figures for the crop year ending July 31 last, show Montreal deliveries were six and three-quarters times those from the British Columbia port. Vancouver shipped 25,133,218 bushels of grain for the crop year ending July 31, while Montreal, during this period, disposed of 159,929,018 bushels.

E. W. Beatty, president and chairman of the Canadian Pacific Railway, accompanied by several of his directors is at present engaged in the annual tour of inspection of the company's system. In an address to the directors of the Canadian National Exhibition in Toronto Mr. Beatty declared that the "only safe and certain cure for the relief of the Dominion's railway obligations rested upon the country's industrial and agricultural development."

## HOT DOGICA

A story is told of a young lady who went to a boarding school. On the farm she was always known as "Jessie" but about the third letter she wrote home was signed "Jessica." Brother Tom replied to her letter: "Dear Jessica—Jessica and Monica have gone to visit Aunt Lizzy. Uncle Samica is talking of buying a new machinica, but doesn't know whether to buy a Fordica or a Chevica. The old cowica had a calfica. I was going to call it Nellie, but I had to change it to Jessica because it was a bulfica. Your loving brother—Tomica."—Viking News.

CHINA FLOODS  
ARE GREATEST  
IN 38 YEARS

Peking, Sept. 28.—Fifteen thousand square miles, containing the homes of 2,000,000 persons, now are flooded, and it is feared that hundreds have been drowned in consequence of the break in the Yellow river dyke on the Shantung Chihli border. The affected area is being extended hourly and the famine relief workers from the scene say the flood is the greatest since 1887.

A further break in the main south dyke is allowing the waters of the Yellow river to flow unrestrictedly to the south, and a portion may reach the Yangtze river through the Grand canal. The possibility is seen of complete and permanent alteration in the river's course.

## THE MAN ON THE JOB

It's never the job or his wages, That determines the worth of a man. It's the faith and the courage he uses in doing the best that he can. It's the vision that carries him onward To success with a heart all afloat, For the man who is winning the honor Is the man who is making the job.

For no one will carry him upward; He must climb to the top by himself. If he falters or stumbles, from a humble He is apt to be left on a shelf. Though the job may be purpose or mental, Irresome, distasteful, or lone, There's always some chap who can use it.

For an upward stepping stone, And though the toll may be weary And rewards seem uncertain and slow Dame Fortune is ready and waiting. For the chap full of hustle and go, Who bends to the task in good earnest With a courage that no one can rob, For the job doesn't count much in the struggle, As much as the man on the job.

So whether we toil for a living, At a desk or a bath or a loom, In the fields that are ripe for a harvest Or deeper in a mine's lonely gloom, And whether we draw out ten thousand Or a paltry and mean forty bob, There's a job for the man who can make it.

It's always the man—not the job.

WAS THREE YEARS  
OVERSEASWounded, Gassed  
and Shell Shocked

Mr. Wm. G. Treholm, Southampton, N.S., writes—"I spent three years overseas with the Canadian Infantry, and was wounded, gassed and shell-shocked and my nerves were left in a very bad condition.

After coming home I had a rest for some time, but my nerves seemed to be better, but as soon as I started to work they commenced to get bad again, and inside of six months I thought I would have to give up my position as a rotary sawyer.

Why, whenever the saw would hit a knot or hard place in a log I would go so nervous I would turn weak and start to tremble, and after a hard day's work I could hardly sleep that night at all.

A friend advised me to try

**Milburn's  
Heart and Nerve  
Pills.**

which I did with the following effects:

I can now all day long, and no matter what the saw hits it doesn't affect my nerves at all, and I can also sleep well at nights."

Milburn's Heart and Nerve Pills are put up only by The T. Milburn Co., Limited, Toronto, Ont.

INSULIN IS USED  
AFTER OPERATIONS

Contrary to the commonly accepted belief that insulin was used only in cases of diabetes, Dr. M. E. Hall, pathologist, of the Royal Alexandra hospital, Edmonton, told the members of the Medical association Friday afternoon that twenty times as much insulin was used after operations than for diabetes. The injection of insulin into the veins of the patient after an operation, he explained, gave them strength and enabled them to recover more quickly.

## THE EATS

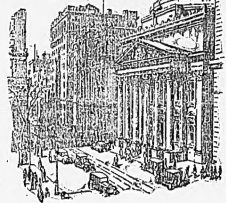

The man whose life is sedentary, who spends it in a padded chair, should be aloof and chary when he confronts the bill of fare; stewed hummingbird or baked canary is better far than roast beef rare. One thing the doctors are agreed on: we eat too much, they all protest; the rich and gaudy things we feed on convey us to eternal rest; the undertaker draws a bead on the man who eats with fiery zeal. We listen to the doctors' warning, they speak the truth, we wot and wish we promised that tomorrow we'll cut the rich things from the list; to-day a fine roast is adorning the menu, and we can't resist. The next day, when we should be framing such pledges as the docs advise, the cook comes to us proudly naming a string of roasts and soups and pies; "Next week, perhaps," we're heard exclaiming "we'll follow up that counsel wise." And presently we're feeling seedy, our vitals do not function right; we are too fat or else too weedy, our symptoms fill our hearts with fright; the doctors say, "You're so blamed greedy you've got yourselves in grievous plight. How often have we sawbones told you that eating is a deadly trick, unless the toffers' clothes unfold you, unless you suffer the sledge or pick; you booby would eat, and now behold you—you're wobbly on your pins and sick." They scare us stiff, and for a

## WEDDINGS

### STAUFFER — NELSON

A quiet wedding took place at Emmanuel church, Wetaskiwin, on Wednesday, September 23rd, when John Stauffer, son of Alexander and Lucy Stauffer, was united in holy matrimony to Ruthie Nelson daughter of the Stauffer and Alice Nelson. Both families reside in the Yeoford district. Rev. W. J. James officiated.

### Alta. Egg and Poultry Pool To Be Put Into Operation At Earliest Possible Time

Organization of the Alberta Egg and Poultry Pool is now well under way and at a meeting of the permanent board held in Calgary on September 19 the executive committee was authorized to take immediate steps to put the pool into operation at the earliest possible time. There is a general tendency on the part of the members to look to the pool to handle the fall shipments of poultry. Whether this will be possible cannot yet be told. The question which the executive committee will now deal with is that of securing efficient managerial service and providing for the physical means of handling the products.

All members of the permanent board were present at the Calgary meeting and the permanent officers were elected. Mrs. R. B. Gunn of New Lindsay, president of the U.P.A., is chairman; Mr. C. H. McDermid, of Whitham, vice chairman, and Mrs. P. E. Wyman, of Calgary, secretary.

The business of the meeting was largely a review of the work in the province in order to get a general understanding of what had been done. Verbal reports were presented by the directors, and practically all reported the greatest interest among the membership. The members are particularly keen in regard to securing information regarding the best methods of preparing poultry and other products for the market in order to ensure the "quality" price.

The idea of the egg and poultry pool originated with the U.P.W. Two years ago the annual convention discussed the principle of cooperative marketing. The organization felt that the principle was sound and good, and the attitude taken toward the whole movement was that if the principle was worth while, the enthusiasm and intelligence of the U.P.W.A. was sufficient to overcome any difficulties and work out the details of the scheme. The convention went on record as favoring the principle of cooperative marketing to include and urged that steps be taken to form a cooperative pool for the marketing of eggs and poultry. This resolution was then brought before the U.P.A. convention and the question further discussed. The difficulties which attend the handling of perishable commodities were thoroughly gone into, and finally the resolution was amended to include other by-products of the farm, such as dairy and livestock, and endorsed by the general convention.

Since that time the locals of the U.P.A. and U.P.W.A. throughout Alberta have been making concerted study of the question of cooperative marketing. This summer a drive was put on to secure members. The response was enthusiastic, and now at the end of two and a half years the organization is practically completed and it is hoped that the pool will soon be in operation.

The party of ten British journalists who have been touring the west under the auspices of the C.P.R., held visits to Calgary and Edmonton recently. At Edmonton they were taken to the farm of Lord Rodney near Fort Saskatchewan. The journalists also paid an extended visit to the Alberta University. They were much impressed with what they saw of Western Canada.

## TOWN TOPICS

Mrs. A. L. Elliott will not receive on Thursday, October 1.

Mrs. Frank Bealrose of Edmonton, visited friends in the city this week. You are invited to attend the Klwanis dance on Friday evening, October 9.

Mrs. A. E. McLennan, of Toronto, is visiting at the home of her brother, J. S. Thomson, whom she has not seen for nearly 20 years.

The next big social event to take place in Wetaskiwin will be the Klwanis Dance, which occurs on the evening of October 9.

George Salter, of Nanton, is spending a few days in the community visiting relatives and renewing old acquaintances.

The regular meeting of the I.O.D.E. will be held at the home of Mrs. R. W. Manley on Tuesday evening, October 6, at eight o'clock.

The Economy Meat Market has been leased by Mr. Donaldson, recently of Medicine Hat, who takes possession on October 1.

The October meeting of the Hospital Aid Society will be held in the nurses' sitting room on Tuesday afternoon next at four o'clock.

The plate glass windows have been installed in the stores in the District block which are being remodelled. The change has greatly improved the appearance of the premises.

Thursday of this week is being observed as civic holiday, and all places of business will be closed all day. It is the first day of the chicken and grouse shooting season.

Fred Rubbra left for Edmonton on Wednesday of this week, having accepted a position as stenographer in the treasury department of the provincial government.

The monthly meeting of the Scandinavian Hospital Aid will be held at the home of Mrs. Forbes Atkinson on Tuesday afternoon, October 6, at 3:30 o'clock.

The Salvation Army had a very successful dinner and sale of goods last week. The officers are well pleased with the patronage that was accorded them.

J. B. Schreifers returned home on Friday from the General Hospital, Edmonton, where he underwent an operation. His many friends are glad to learn that he is improving nicely.

The Rebekahs and Oddfellows held a most enjoyable social evening in their lodge room on Tuesday evening. Court which was played until luncheon, followed by a dance.

The weather conditions in Southern Alberta have created a shortage of milk and cream in the city of Calgary. Several cans of milk were sent from Wetaskiwin Tuesday morning to help meet the demands.

Don't forget that the date of the hospital bazaar is Thursday, November 12. Committees are busily at work, and it is expected that the bazaar this year will be bigger and better than ever.

E. R. Ennis of Leduc called at The Times office Monday morning on his way home from Camrose. Mrs. Ennis has taken up temporary residence in Camrose, where their two children are attending normal school.

Mrs. H. J. Montgomery, director of the Women's Institutes for central Alberta is visiting meetings of the different Institutes in her territory. During the past few days she attended conferences at Strome, Gadsby, Coronation, Lacombe and Innisfail.

Rev. R. W. Hibbert, B.D., of Calgary, a specialist in Young People's church work, will meet the young people in Wesley Hall (former Methodist church) on Monday, October 5, at 8 p.m. A most cordial invitation is extended to all young people.

The Golden Circle C.G.I.T. will hold a tea and sale of home made candy in the former Presbyterian church rooms on Saturday, October 10, from 3 to 6 o'clock. The tea is given in aid of the Wood's Christian Home. All are cordially invited to attend.

Mrs. General Booth, Staff Capt. Dora Booth and Commissioner Mapp, from the Salvation Army headquarters, London, England, will be conducting the 42nd annual congress in Winnipeg from October 9th to 15th. The local corps will be represented by Capt. Parkinson, who will be leaving next Tuesday.

C. G. I. T. PAGEANT  
A pageant entitled "World Fellowship" was presented by the Edith Cavell group of C.G.I.T. on Sunday afternoon in the former Methodist church, during the Sunday school rally which was held.

## OBITUARY

### MRS. GLELLAND

Mrs. Anna P. Glelland of Brightview, passed away at the University hospital, Edmonton, on Saturday, September 26th, in her 57th year, after a lingering illness. She leaves to mourn her loss a sorrowing husband, Robert Glelland, of Brightview, and a grown-up family: W. D. Glelland, Grace City, N.D.; Tom, of Brightview; Mrs. J. MacPherson, Brightview; Mrs. A. Bonnard, Grace City, N.D.; R. Clonard, Grace City, N.D.; Mrs. N. Harris, Tonahawick, Wis.; Mrs. P. Stahl, Tonahawick, Wis.; and Archie, of Brightview. The funeral services were held on Monday, September 28th, conducted by Rev. McLagan of Wainwright, in St. Andrews' church, the interment taking place in the Wetaskiwin cemetery.

### MRS. CARL DUGGER

The funeral of the late Mrs. Carl Dugger took place on Wednesday of last week, service being conducted in the former Methodist church, by the Rev. A. R. Aldridge. The interment took place in the family plot in the Wetaskiwin cemetery, the pallbearers being Messrs. Alex. Murray, Roy Stanley, R. T. Hawkins, J. M. Jackson, C. E. Hibbs and Peter Baxter.

The late Mrs. Dugger was born in Indiana sixty-seven years ago, and came to this district in 1906 with her late husband and family. They settled on a farm north of the city, where deceased resided until she moved to the city a few years ago, to retire from the strenuous activities of farm life. Her husband predeceased her about three years ago.

She leaves a grown-up family as follows: Mrs. McGavin and Mrs. W. E. Hawkins of Edmonton; Clarence on the farm; and Mrs. Ben Jackson, Mrs. Pat. Genz of Wetaskiwin.

### BORN

RIGGAN—At Millet, on the 29th of September, to Mr. and Mrs. Arthur Riggan, a daughter.

J. E. PROCTOR  
District Passenger Agent  
Calgary 27-2tn

## LEAVE FOR UNIVERSITY

Lectures commenced at the University of Alberta on Thursday of this week and the students are assembling for the term's work. Among those in attendance will be Angus Robertson, Ed. Peterson, Bert Groves and Gordon French from Wetaskiwin.

### APPRECIATION

As leader of the Salvation Army in Wetaskiwin, I wish through the columns of the Times to express my thanks and appreciation for the hearty response and cooperation of the people of the community who have helped me so willingly and generously in the present campaign. Thanking you again for the response and trusting to be a help and blessing to all, I remain,  
Yours to serve,  
A. H. Parkinson, Lieut.

## Lost

REWARD—Will be paid for information leading to recovery of dark bay mare, 8 years, weight 950, branded plus sign in circle on right hip, which strayed from Wetaskiwin Sept. 5. Give information to Times Office, Wetaskiwin. 26-4in

## Stray

STRAYED—From my farm, 12 miles southeast of Wetaskiwin, one dark iron grey mare, 4 years, weight about 1500. L. H. Newville, Phone 140 Box 615, Wetaskiwin, Alta. 28-1in

## Miscellaneous

TENTS AND AWNINGS—Repaired. Let us look over your tents and awnings before the spring rush begins. Also your auto, carriage and furniture. Highest class work promptly done at lowest price. Drop a card to W. J. Pickard, Wetaskiwin. 4-1in

## THE DOMESTIC ANIMALS ACT

## NOTICE TO OWNER OF IMPOUNDED ANIMAL

Notice is hereby given under Section 33 of the Domestic Animals Act (Municipalities) that One Dark Bay Gelding, age about 8 years, roached mane, white spot on forehead, both hind feet white, branded [illegible] on right shoulder, and [illegible] (clothing, in opposite direction) on left shoulder, and slightly stiff, was impounded in the pound kept by the undersigned located on the S.W. 15-47-25, V4, on Monday, the 23rd day of September, 1925, and that the said animal will be offered for sale not sooner than eleven days, and not later than 15 days after the date of such impoundment, unless same is released by payment of all lawful fees and costs, under the provisions of the Domestic Animals Act (Municipalities).

L. W. MARR. 28-1in

## NOTICE

NOTICE is hereby given that, in accordance with the provisions of The Irrigation Act, the Canadian Pacific Railway Company have filed the necessary memorial and plans required by Sections 13 and 15 of the said Act, with the Commissioner of Irrigation, at Calgary, Alberta.

The company applies for the right to divert sufficient water from Pipestone Creek at a point on the North-east quarter of Section 12, Township 47, Range 24, West of the 4th Meridian, for industrial purposes, and for the right to construct the necessary works, as shown by the memorial and plans filed, to enable the water so diverted to be used for the said industrial purposes, in the Company's tanks, engines, and buildings situated at Wetaskiwin.

The undermentioned lands are also affected by right of way for the proposed works, viz: the Northeast, Southeast, Southwest and Northwest quarters of Section 12; and the Northeast, Northwest and Southeast quarters of Section 13; the Northwest and Northeast quarters of Section 11; the Southwest quarter of Section 14 and the Southeast quarter of Section 15, in Township 47, range 24; the Northeast, Northwest, and Southwest quarters of Section 35 and the Northwest quarter of Section 26, in Township 46, Range 24, west of the 4th Meridian.

DATED at Calgary, Alberta, this 14th day of September, 1925.

THOMAS LEBES, 28-4in. Applicant.

## Church and Sunday School

Wetaskiwin—Sunday school 11 a.m.  
Service 8 p.m.  
Hall, 8 miles north, service 11 a.m.  
Offerdale school—service, 3 p.m.  
J. O. E. Nyström, Edmonton will be the speaker at these three services.  
Tuesday and Friday, at 8 p.m.—prayer meetings.

## BETHLEHEM SWED. LUTHERAN

Sunday, October 4—  
10:30 a.m.—Morning service.  
12 a.m.—Sunday school.  
At Svea, Malmo—3 p.m., Gospel service.  
At Saron, Clive—8 p.m., Evening service.  
Rev. O. H. Miller, Pastor.

FOR SALE—160 acres, N.E. 36-47-25, close west of Millet, all fenced, buildings and good well. Price, \$30.00 an acre. Write owner, Mrs. Geo. Carmel, 629 W 55th, Seattle, Washington. 27-4in

## French Canada Celebrates Its History

Just 24th of every year is the great day of the French-Canadian. In every city and every hamlet of Quebec Province and in the cities and centres of the New England States and in those parts of Ontario and the West where he has migrated, St. Jean Baptiste Day is never overlooked. It is well that it should be so and it introduces into Canada a Old-World seventeenth century atmosphere that Canadians as a whole could ill afford to lose, either artistically or historically. Our pictures show some interesting features taken from floats exhibited on this occasion. There is the heroic 17th century farmer defending gun in hand his crops which his father and women folk are reaping. The children on their way to school watch the housewife baking her bread in the old-fashioned oven which is still in extensive use in Quebec Province. The making of maple sugar, an industry developed from the researches of Dr. Sarrazin in 1685, is yet another popular float which always figures in the celebrations.

## SOLVES PROBLEM OF TRANSPORTATION OVER DEEP SNOW

(Upper) Floating heavy sleds loaded with ice through an ice covered city street. (Centre) Side view of the Fordson Snow Motor. (Lower left) Road breaking over snow six feet deep with load of lumber. (Lower right) Rear view of Fordson Snow Motor.

Necessity is the mother of invention. At least everybody says it. They tell us that is why we have the telephone, the radio, the electric washing machine, chewing-gum, aeroplanes and bobbed-hair: all members of old Mother Necessity's vast and ever growing family.

And now the transportation branch of the family circle has been added to by the advent of a very healthy and important youngster who has a bright and promising future ahead of him. He is called the Snow Motor, a name which was given him because of his amazing ability to move himself and anything that was attached to him as easily over six feet of snow as an ordinary wheeled vehicle does over a paved road.

The Snow Motor was invented by a man who has spent the greater part of his life in the snow-bound wildernesses of Alaska and whose livelihood depended upon his ability to transport himself and certain weighty commodities, such as lumber for instance, over vast snow-covered areas without losing either his life or his lumber.

It did not take more than a few winters in the frozen north to convince this gentleman, whose name by the way, is P. E. Burch, of Seattle, Washington, that there was something radically wrong in the matter of vehicular traffic in countries where very heavy falls of snow were common and inevitable occurrences. Not only was this true, he thought, in regard to the hauling of heavy loads but in the transportation of the inhabitants themselves who, are often quite unable to carry on the ordinary pursuits of life and business during the winter months: months when the whole communities had either to put up a hopeless fight against the snow with sadly inadequate equipment or else, what is sadder still, resign themselves to being snow-bound for the winter and completely cut off from the rest of the world.

And so, urged on by Mother Necessity, Mr. Burch and his associates conceived the idea of the Snow Motor. And this is what the Snow Motor does. It floats over snow and, in floating, packs the snow down smoothly and makes a very satisfactory surface for other vehicles to travel over; it hauls lumber from the forest, ore from the mines, pulp wood to the mills, mail to rural snow-bound communities, passen-

gers from one such community to another; and in fact does practically everything that an automobile or a tractor does in places where there is no snow. The Snow Motor is a weird looking contrivance which rides the crests of the deepest snow drifts, climbs over fences, stands on its double-barrelled nose and drags its great loads behind it without any apparent effort. As manufactured at present it is attached to Fordson tractors which provide its motive power. Later it will also be used on standard automobiles, when it will travel at a rate of twenty-four miles an hour.

Stripped of its motive power it consists of two cigar-shaped cylinders or drums to which flanges, resembling cork screws are attached. These cylinders literally float on the top of snow drifts, for they displace snow equal in weight to the weight of the machine, just as a boat displaces water in proportion to its own tonnage. For heavy hauling the Fordson Tractor stripped of its wheels and axles, is mounted on the Snow Motor and the cylinders are caused to revolve with the result that the Motor worms its way along by means of the screw arrangement on the cylinders. For lighter, or passenger traffic, the wheels and axles of an automobile are removed and replaced by the Snow-Motor. In summer the wheels can be put back again.

In snow-bound districts, up to the present, every effort has been directed to find ways and means for the removal of snow as the only way of opening up traffic. Now, however, the Snow Motor comes along with its funny looking cylinders and floats merrily over soft snow drifts, in fact in fact any condition of snow and as it goes makes a road for light vehicles to follow immediately and, after thorough packing, for loads of any weight.

Such is the latest and most important addition to Mother Necessity's family of inventions. It is built by Snow Motors Incorporated in Detroit, Michigan, under the presidency and general management of A. F. Knoblock. It has already proven its ability to do the surprising stunts referred to above and there seems to be very little doubt that it will be in general use in mining and lumbering operations during the coming winter. It is expected that each succeeding winter will find some new use it can profitably be put to and it is difficult to imagine just where the limit of its adaptability should be placed.

## FORMER A.P.R. MOVED

The Province, Inisfail, reports that Corporal Cawsey has been moved from Inisfail to Carleton.

We got to know some of the news, but not as much as we would like. Please your news to 27, or write and address it to The Times.

## Save Money

It is not always easy to save but those who do save prosper. As a little money is accumulated it should be placed in a Savings Bank account where interest will be paid and the principal sum be secure. There is a Savings Bank Department at every branch of this Bank.

## ELEVENTH GOV'T REPORT OF CROPS

Issued by the department of agriculture, Edmonton, September 28th, 1925.

With cutting of practically all grain completed throughout the province nearly three weeks ago, threshing operations have been continuously delayed and hampered by cold, wet weather, in which there has been considerable rain, with snow in many parts of central and southern Alberta. The result has been that at present scarcely more than 25 per cent of the threshing is completed. The wet weather has had a tendency to toughen the grain, and in a few districts the grain in stock has sprouted. The general effect has been to lower the grade. Severe frost has also occurred but the effect of this on grain in the stock has suffered from this so much.

Threshing is progressing intermittently as the warm days occur and the grain becomes sufficiently dried out. It will be some time yet before any large proportion of threshing is completed in any part of the province. In order to gain some idea of the yields of wheat being obtained, the department two weeks ago issued requests to threshermen for returns on wheat threshing. To date, out of 4,300 return forms mailed out, only 1,343 have been received back. Of this number, 785 report either no average in wheat or no threshing done, the large majority reporting the latter. The balance, which are scattered well over the province, show an average yield of wheat of 16.69 bushels to the acre. Comparatively few returns have been received from the territory south of main line of the C.P.R., where there is a large area yielding very light. On the other hand, a considerable number of returns are still to be received from central and northern Alberta where rather heavy yields are being obtained. These facts would have to be taken into consideration in arriving at an estimate of the yield throughout the province. Consequently the final results may slightly increase or lower the average quoted.

The delay in threshing operations has resulted in another and more demands for harvest labor at intermittent periods, and has somewhat complicated the labor situation, but the provincial labor bureau reports the situation well in hand. Harvest is now coming from the sugar beet fields of the irrigated districts for help for the harvesting of the beet crop which which start about October 1. A particularly heavy crop is expected.

The potato crop this year is heavier than last season, and it is anticipated that there will be a considerable export surplus. No districts in the province report a shortage, while many report a considerable surplus.

## LONELY POST FOR

POLICE IN ARCTIC  
Ottawa, Sept. 24.—The world's most northerly police post and also the most remote from any human habitation, is to be constructed next year for the mounted police at the far end of Ellesmere Island.

Building materials and two years' supplies have been cached within easy reaching distance of the point. Three men will be detailed for duty on the indescribably lonely shore of Rice Straits.

crowded with teachers in training this term. More than 300 students have been admitted at Canmore and 375 will be in training at the Calgary normal school. This is an increase over former years.

## British Journalists Here

The party of ten British journalists who have been touring the west under the auspices of the C.P.R., paid visits to Calgary and Edmonton recently. At Edmonton they were taken to the farm of Lord Rodney near Fort Saskatchewan. The journalists also paid an extended visit to the Alberta University. They were much impressed with what they saw of Western Canada.

## British M.P.'s Visit Province

Recent prominent visitors to this province from the old land included Rt. Hon. Viscount Gage, Capt. D. Margeson, M.P., and Capt. V. A. Cazale, M.P., from Britain.

## More Oil at Fort Norman

Further proof that oil in hopeful quantities is contained in comparatively shallow shales on structures in the lower Mackenzie valley was brought out from Fort Norman by the Imperial Oil drill crew. The Fort Norman crew reported that in the well drilled this summer, a short distance from the original discovery well, oil estimated in quantity at about 1000 barrels per day was struck in a shale at a depth of 1,963 feet.

## Russian Families Settling

Twenty-one Russian families of a good type recently arrived in High River district south of Calgary, with a view to purchasing farms in the vicinity of the Bar U Ranch.

## Labor Bureau Places Many

During the nine months from January to September inclusive, the provincial labor bureau has placed a total of 47,217 workers. During the harvest season this year it has placed 9,638 workers, compared with only 4,792 last year. The unit cost of the placements this year has been 62 cents as compared with \$1.34 in 1921.

## METHODS USED FEEDING HOGS

A test in methods of feeding hogs conducted at Southern experimental station is of very special and general interest. A hundred and thirty pigs representing pure bred Berkshires, Tamworths, Yorkshires and cross-bred from these were divided into thirteen lots. The test lasted 146 days and the average gain per animal for the period is thus tabulated in the superintendent's report for 1924, the figures indicating pounds:

Self-feeder on rape pasture, 157.9.  
Heavy hand-feeding on rape pasture, 142.4.  
Light hand-feeding on rape pasture, 136.7.  
Heavy hand-feeding on oat pasture, 136.7.  
Light hand-feeding on oat pasture, 130.5.  
Heavy self-feeding on barley pasture, 116.2.  
Light hand-feeding on barley pasture, 126.9.  
Light hand-feeding on oat and barley pasture, 124.6.  
Light hand-feeding with buttermilk and corn pasture, 142.5.  
Self-feeder in dry lot, 114.8.  
Heavy hand-feeding on dry lot, 95.7.  
Light hand feeding in dry lot 101.

In his deductions from results the superintendent points out that on the average the pigs on pasture, not including the lot given heavy hand feeding with buttermilk and corn pasture, required 98.8 pounds less meal for each 100 pounds gain than those fed in dry lot, which means that it cost 73.9 cents more per hundred pounds gain to feed in dry lot. Furthermore, he says, the pigs on the self-feeder on heavy hand-feeding on pasture were, with few exceptions, ready for market at six and a half months of age, weighing 170 pounds on the average, while those on the self-feeder on heavy hand-feeding in dry lot weighed only 128 pounds on the average and were not up to market weight until five weeks later.

## The 'Take-All' Disease Of Wheat In The West

An extensive survey made this year by the Dominion laboratory of plant pathology, Saskatoon, discovered the disease "take-all" of wheat in many wheat fields in north eastern Saskatchewan. The disease varied in severity, many fields being free or showing only a trace and others showing ten to fifty per cent of diseased plants. It was also found in wheat fields not far from Edmonton, and has recently been reported from northern Manitoba. As far as is known at present, the take-all disease is confined to the park country, only traces being found in the prairie region.

The disease is caused by a fungus which attacks only the underground parts of grasses and wheat. The young plants may be killed or the injury to the roots or base of the stem cause the plants to be stunted. The disease is most easily noticed at the time the healthy wheat plant begins to ripen. It usually occurs in spots, where the plants are much stunted and of a pale white color, while the healthy plants are green. The heads are small and the kernels are absent or much shrivelled. As many of the wheat seedlings have been killed in the early stage, the wheat is thin in the diseased spots. There may be many of these spots in a field. The diseased wheat is easily pulled out as the roots and base of the stem is decayed. The lower part of the stem at or just below the surface of the ground is dark or black in color. This dark color is usually best seen by pulling away the sheath. Sometimes small dark spore cases may be seen attached to the sheaths or roots.

While the disease is serious, there is no need for alarm. From all the evidence obtained it seems the disease is present on native grass, and when the land is broken it passed to wheat through the soil. There is no spread from plant to plant in the air, as in the case of rust. Infection takes place only through the soil, so that the spread from field to field, except by soil or stubble transfer, is not probable.

From the work done in Australia and observations in Saskatchewan, the following suggestions for the prevention of the disease are made: 1. Burn the stubble on the diseased spots; placing some dry straw on the spots would help in this. The burning destroys the mycelium and spores on the stubble at the surface of the ground. 2. Avoid grasses in rotation on diseased fields; they harbor the disease in their roots. 3. Summer fallowing will probably lessen the disease, but grasses must not be allowed to grow in the summerfallow. 4. Use resistant crops such as oats, rye, potatoes, and sunflowers in rotation. Rye and barley are attacked but not so severely as wheat. Such measures if carefully followed will lessen the disease and probably cause it to disappear or become of little importance. Specimens from diseased spots may be sent to the Dominion Laboratory of Plant Pathology at Saskatoon for determination.

## DO YOUR BOWELS GET CONSTIPATED?

There is no ailment so common today as constipation, and none more dangerous to bodily health, and one that is only too frequently neglected. A free action of the bowels every day is what you need to ensure bodily health, and when the bowels are irregular you should remedy the trouble at once.

Keep your bowels regular and working properly by the use of

## SUNDAY SERVICE

Following the song service in the Millet United church on Sunday evening, Rev. J. B. Howard read the story of the Prodigal Son, and took the conduct of the elder son as the basis of his sermon—"Respectable Sinners." This self-righteous son, declaring: "Neither transgressed I at any time thy law," is a type common to the ages—a man who thinks too highly of himself. The nature of the prodigal son was open to influence and God is always ready to help the repentant, but cannot help the self-satisfied one. He goes uncomended by the Master. Being self-satisfied, he could have no high ideals. His "no failures," shown in his declaration "Neither transgressed I at any time thy law," points to no worth-while attempts in his life—there are no great ideals in life, there are no mistakes.

The prodigal son returned penitent and the elder brother would have driven him away in anger, showing that negative goodness is a poor type of religion.

## MILLET LOCAL NEWS

Mr. Fred Winter has started in the draying business in town.

Mr. Evans made a flying trip to Bonnie Glen one afternoon last week.

Mr. Joseph Moomen has purchased a threshing outfit.

Mrs. Pearl, of Edmonton, is the guest of Mrs. Alkens.

Mr. and Mrs. Joseph Phillips were visitors from Edmonton to West Liberty last week.

Mr. and Mrs. Lloyd Dowdell have returned home after spending a very pleasant vacation with their parents.

Mr. J. H. Anderson principal of the Viking school, was a week-end visitor in Millet.

Mr. and Mrs. J. West were guests at the home of Mrs. Phillips on Sunday afternoon.

Miss Wood and Miss West took tea with Mrs. Martin Nelson one evening last week.

The Anglican church card party, under the direction of Mrs. Parker, will be held on Tuesday, October 27.

Mr. and Mrs. A. A. Dickson of Perintosh, motored to Millet on Sunday, spending the day with Mr. and Mrs. E. J. Olesen.

Mr. and Mrs. T. L. Hinton, of Summerville, P.E.I., the latter a sister of Rev. J. B. Howard, are guests at the parsonage.

A card party will be given by the ladies of the Church of England under the direction of Mrs. J. H. Parker, the proceeds to go to the church. The date will be announced later.

On September 16, Mr. and Mrs. Jan Shaw entertained in honor of their son and his bride, who motored through from the United States. A delicious supper was served, the table being crowned with a wedding cake.

Mr. Geo. McKeown received quite a severe injury last week when in attempting to stop his team from running away, had his hand caught in the machinery of the binder, causing the loss of two fingers from his right hand.

Mrs. Eric Skjel entertained on the occasion of the birthday of Mr. Skjel on Friday evening. The guests included Mr. and Mrs. Johnson, Mr. and Mrs. L. Rupert, Mr. and Mrs. H. Thompson, Misses Marjorie Mullen, Verna Rupert, Esther Rupert, Messrs. Lyle Moore, Murdoch Rupert and Norman Rupert. A very pleasant evening was spent, and delicious refreshments were served.

## SURPRISED ON ANNIVERSARY

On Friday evening, September 11, a few of the numerous friends of Mr. and Mrs. Herman Arnold dropped in to surprise them and to congratulate them on the 25th anniversary of their wedding. A most enjoyable evening was spent with cards, music and singing. Miss Susie Haines was a very capable pianist. Songs were sung by Mrs. Martin Nelson, Miss Marjorie Dowler and Miss Margaret Haines. Mrs. Arnold looked a radiant bride, dressed in pale blue silk with ruffles of Brussels net. After refreshments were served, in which was included wedding cake, the bride and groom were presented with a magnificent silver tea service. The presentation was made by Mr. Weir on behalf of the guests present. Mrs. Arnold was visibly affected by the deep affection and kindness of all, and will ever cherish the memory of one of the happiest days in their lives. The guests included Mr. and Mrs. Weir, Mr. and Mrs. Haines, Mr. and Mrs. Moomen, Mr. and Mrs. A. Dowdell, Mr. and Mrs. L. Dowdell, Mr. and Mrs. H. Phillips, Miss Belle Dowdell, Mrs. S. Clark, Miss Mabel Clarke, Mr. Charles Dowdell, Mr. and Mrs. Abe Clark, Miss Susie Haines, Mr. and Mrs. Nelson, Miss Margaret Haines and many others.

A very interesting game was played between West Union and Millet on September 25. It was agreed that the first half should be played under the girls' rules and the second under boys' rules. The first half ended in favor of West Union, the score being 13 to 2. In the second half, Millet picked up and the final score ended at 15 to 16, in favor of West Union.

## BASKETBALL

On September 25 another game was played between Wetaskiwin Juniors and Millet. The final score was 26 to 2, in favor of Millet. The Wetaskiwin team played a good game but were unfortunate in their shooting.

## SCHOOL FAIR

The Millet school fair was held on the school premises on Friday last, September 25. The day dawned in mist and rain and for a time it was a question as to whether the fair would be held. The weather cleared somewhat and the programs were carried through.

The contest for the Mitchell Cup, which always creates the greatest interest, was again won by Howard Higginson. This makes his second consecutive win.

The exhibits were arranged in the class rooms, and, following the judging, the doors were thrown open to the public.

After viewing the exhibits, interest centred in the high school room where Principal Wells introduced Mr. D. W. Warner, the federal member for the Strathcona constituency. Mr. Warner emphasized the importance of the school fair to the children and its place in the life of any community in its raising the standard of citizenship.

He said the prizes in themselves were not all that there was to the fair, but the object is to have better farmers, better farmers' wives and better citizens. He approved the action of the government in spending money on the school fairs, this action placing a responsibility on the children in study, work and time. Their debt to the taxpayers is to take advantage of all opportunities in education so given.

Mr. Hinton, addressing the audience from the platform at the school entrance, complimented the directors and all taking part on the good exhibition, and urged that the directors be given the best support possible, so ensuring a successful fair. He said, too, that the success of the fair depended greatly on the enthusiasm on the part of the teachers and asked that they spread the preparation of exhibits over the term and not to prepare them all in the last few weeks before the fair. He then took up the matter of preparation of vegetables, showing the first prize selections in each case and telling why the prizes went to these particular exhibits. In every case he showed how the exhibit could be improved and where so often the instructions given in the book had not been followed.

Mrs. Edwards, continuing in the importance of following closely the printed instructions, illustrated each point from exhibits, showing why the first prizes could not be given when directions were not followed.

The Basketball game between Millet and West Union resulted in victory to West Union by 15-10.

The prize in singing was awarded to Wance school.

Weissenhalt school took first prize among decorated floats. The floats presented a very creditable appearance considering the difficulties under which they were preparing—the mist and rain over night dampened the pupils' work.

The school fair board takes this opportunity of thanking all who so generously donated supplies for the dinner and supper at night, served in the community hall.

Mrs. Plant, Miss M. Plant, Miss M. Alkens, Miss N. Gole and Miss Edwards who spread a bountiful table at the noon hour, and Mrs. Ross, Mrs. Carney, Mrs. Ricketts and Mrs. Plant.

The following gentlemen from Millet attended the Liberal convention at Wetaskiwin on Monday afternoon: J. West, Harry Lewis, A. P. Mitchell, A. H. Parker, Kerr, Harry Stewart, J. Benham, J. R. K. Graham, A. Rehaume, Henry Young.

**ACHES**

Minard's is an enemy to pain. It penetrates to the root of the trouble, soothes and disinfects. Splendid for neuralgia, backache and stiffness of the muscles and joints.

**MINARD'S LINIMENT**

"KING OF PAIN"

who served supper following the dance.

The officers of the school fair association are: President, Mrs. Ross; vice president, A. P. Mitchell, secretary, T. Wells; Directors, W. J. Thompson, Messrs. Olesen, L. Gray, J. F. Carney, J. J. Anderson.

Great praise is due to the teachers organizing the fair and to whose enthusiasm its success is largely due.

The dance held in Pinyon's hall following the school fair, was a great success, Martin's orchestra supplying excellent music.

The following are the prize winners at the Millet School Fair held on Friday last week, the names being in the order of prizes won, the name of the winner's school following each name.

**Garden Products**  
Class 1, Carrots, 47 entries.—Marie Scharf, West Liberty; Margaret (age 12) Sparling; Roy Christie, Millet; Ida Houghton, Sparling; Albert Townsend, Porto Bello; Susie Haines, Grandview; Addie Gray, Millet.

#### LACOMBE ELKS PLAN A LARGE CARNIVAL

Lacombe, Sept. 28.—The children of the Lacombe district will have up-to-date public play grounds next season if the plans of the Lacombe Elks are carried out successfully, as they are staging a week's harvest carnival in the curling rink. Judging from preparations that are already under way by Worthy Exalted Ruler G. T. Jackson, and his board of bills it will be one of the biggest autumn events that has ever been presented to the people of this district.

The rink is decorated with purple and greenery grown in the district, and the show will open today and run all week, winding up Saturday night with a Mardi Gras and other forms of fun and frolic and community singing. A midway has been constructed in the centre of the rink which will have all the attractions that is usually found in this avenue of amusement.

The Lacombe Elks' band will make its first appearance under the leadership of F. L. Dunphy and will introduce the Elks' march "Hello Bill" for the first time in Lacombe.

**IN MEMORIAM**

In loving memory of Kenneth, son of Mr. and Mrs. L. W. Scott, who passed away September 24, 1922.

Hopes are crushed and hearts are bleeding.

Near the friends now, and alone

Ho, the dear loved and the dearest,

Far away to heaven hath flown.

Long, long, we will miss thee Kenneth,

Long, long days for thee we'll weep;

And through many nights of sorrow,

Memory will here vigils keep.

—Mother and Father.

**CARD OF THANKS**

The relatives of the late Mrs. Dugger desire to thank their friends for all kindnesses shown them in their recent bereavement; also to the friends who sent their autos and beautiful floral tributes.

**GWYNNE U.F.A.**

Owing to threatening there will be no meeting of the Gwynne U.F.W.A. or U.F.A. for the month of October.

Dani, Rynald Yelmer, West Liberty; Jack Goin, Millet; Liddy Schatzcosky, Coal Lake; Iva Shaw, West Liberty.

#### FARMER WILL REGAIN LANDS SOLD CHEAPLY

Following a meeting between all parties concerned in the supreme court action brought by Joseph Ringuelette of St. Albert, against H. Stevens and the Municipal District of Hazelwood, No. 575, on Friday, a settlement was reached in the private room of Mr. Justice Tweddle by which Mr. Ringuelette will recover two quarter sections of land purchased by Stevens from the Municipality at a tax sale in October, 1921, and transferred to him in November, 1923.

Action had been commenced during the morning sessions and after airing of arguments by all parties, the offer of the municipality suggested the meeting which was held in the judge's office. After some hours of conference, a settlement was reached, the conditions of which will be carried out by an order of the court. Notwithstanding the curative section added to the Tax Recovery act in January, 1924 to the effect that no sale should be questioned on grounds of defects, an offer of settlement was made by the defence.

\$237.25. Ringuelette claimed that the lands were worth \$5,200 and that he had not been notified of the sale. Incidentally, Stevens had bought 36 out of the 46 farms offered for sale for arrears of taxes.

Under the settlement agreement, Ringuelette will have his two quarter sections restored to him clear of encumbrances, except for arrears of the taxes due, and the municipality is to have a charge against the lands until these arrears are paid. The municipality is to pay the plaintiff's costs, and also \$2,000 to the purchaser, Stevens, to withdraw. As a certain amount of improvements had been done by Stevens, the plaintiff is to cover these, and, further, this year's crop is to go to the original owner, Ringuelette.

Strong comment on the action of secretaries, in not properly justifying tax sales, was made by Mr. Justice Tweddle during the hearing of the case. He stated he was going to do all in his power to make these officials refrain from neglecting their duties.

#### FIRST DANCE OF SEASON

The first dance of the season was given by the Tennis club on Friday evening in the Elks' hall. The music was supplied by Bone's Sylvan Lake orchestra, and a most enjoyable time was spent.
